Description, Scope and intended use

PRB Systems Ltd Superbrut and Ozé, are pre-mixed cement-based, breathable renders. Superbrut has a range of colours, and Ozé is used if white is required.

The two render Systems are semi-lightweight, fine grained single coat renders supplied as dry powder and mixed with water on site.

The Systems are designed for use on all types of housing, office or industrial buildings. Use may be on exterior or interior walls formed from insulating clay brick, concrete block, lightweight aggregate block or concrete slab.

Reinforcement is required to certain areas and is installed to the site specific installation specification.

Extent of review for NHBC Warranty on NHBC Registered Sites

NHBC Services Ltd has undertaken a technical review of the System Manual as set out in line with the NHBC Accepts Technical Document for Innovative Products.

The NHBC Accepts Service is intended solely to provide confidence that the Innovative Product meets NHBC Standards and is not intended as evidence of performance for any other purpose. Appraisal of the Innovative Products against building regulations is not carried out as part of this Service.

Exclusions and Limitations

This Acceptance Certificate is made out solely to the System Owner. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the System Owner arising out of, or in connection with, this Acceptance Certificate.

Exclusions and limitations are set out in the System Manual. Additional considerations in the use of the Innovative Product include:

- The Systems have not been assessed for use as part of a below ground tanking system.
- Use below DPC must be strictly in accordance with the System Owner's installation specification.
