

REVOMUR & FONDIMUR Guidance information

Rev 0 – 16 08 24

FONDIMUR: Easy application, fibred basecoat and adhesive mortar

FONDIMUR: Can be used on the following substrates:

All unpainted masonry substrates*

Concrete*

PRB approved render boards

EPS, Mineral Wool & Wood Fibre insulation – both as a basecoat and as an adhesive

XPS insulation*

*Subject to applying a suction control coat of **ACROFIX PATE**

It can be overcoated with any PRB thin coat or paint product

It **cannot** be used in conjunction with **THERMOLOOK**

REVOMUR M: ECO designed, non-flammable, thin textured coating – Grain size 1.5mm

REVOMUR M: Can be used on the following renders:

ALG

CLASSIC TAL

FONDISOL F

FONDISOL PE

FONDIMUR*

SC GRIS

SUPERBRUT

OZE

RENOMUR TOP

* Can be used WITHOUT **CREPIFOND F** or **G** primer for lighter shades of whites and creams e.g. Blanc de la Cote, Antalya, Juane Touraine etc. Use the **CREPIFOND F** or **G** primer for darker shades of greys, blues, reds etc e.g. Cote D'Opale, Carnac, Auvergne, Belfast, Caucase, Maldives, Lavandou, Mexico etc.

All other basecoats MUST use the **CREPIFOND F** or **G** primer. If in doubt, then use the **CREPIFOND F** or **G** primer.

Areas of limitation:

Because **FONDIMUR** & **REVOMUR** have not yet been through the certification process they cannot be used on buildings which require an A fire rating, or where a fire rating certification is required.

Though the products are based upon existing technology, for simplicity the products should be limited to domestic properties no greater than 18m.

PRB TECHNICAL GUIDANCE
